## Spring Education Webinar Series Offers Support and Insight for Healthcare Professionals

Grab your lunch and join us for our **2025 Spring Education Webinar Series**. These 1-hour sessions are designed to support, educate, and empower our KAMMCO members. This year's topics include an exploration of AI in healthcare as well as professional resources to support struggling healthcare providers.

Our spring webinars are designed purely for member education and are not accredited for continuing education credits. KAMMCO members who need continuing education credits can find them through our partnership with Med-IQ. [Learn more about Med-IQ here.](#)

### Supporting Healthcare Professionals – A Team Effort to Support Those Who Care

**Wednesday, March 12 (12-1PM)**

Are you or a colleague facing stress, burnout, or personal challenges that may impact your ability to practice safely? Healthcare professionals dedicate their lives to caring for others, but who looks out for them when they need help? This 1-hour webinar will introduce two critical programs—the **Kansas Medical Society Professionals' Health Program (KMS-PHP)** and the **Kansas Nurse Assistance Program (KNAP)**—designed to help healthcare professionals get the assistance they need while protecting their careers and the safety of their patients.

Learn how these programs can support healthcare professionals struggling with mental health concerns, substance use, disruptive behaviors, or other personal or professional challenges. Join us to explore how these confidential programs provide support and a path to wellness for medical and nursing professionals across Kansas.

### Practical Guidance for AI in Healthcare – The Promise and the Peril

**Thursday, April 17 (12-1PM)**

Artificial Intelligence (AI) is rapidly transforming healthcare, offering groundbreaking solutions while also presenting significant challenges. As AI continues to reshape clinical workflows, reduce administrative burdens, and enhance patient care, healthcare professionals must navigate its potential and pitfalls.

Join KAMMCO as we host Dr. Steve E. Waldren, a leading expert in medical informatics, for an insightful webinar exploring the promise and peril of AI in healthcare. This session will provide practical guidance on how to leverage AI effectively while understanding its limitations and risks.

#### What You'll Learn

- Understand the current landscape of healthcare AI
- Learn how AI is dramatically tackling the administrative burden
- Learn about the perils and pitfalls of AI in healthcare
